2nd Director	Warren Short	1111 Mt. Capote	344-3656
3rd Director	Shirley Shead	14006 Flying W Trail	695-8298

Shirley and Carleton Shead have been gracious enough to extend their home for our Sept. 21st meeting. They reside in Helotes Park Estates off Bandera Rd. (see enclosed map).

We have all grown, bought and collected cactus, but have we thought how they came to be. Our speaker we are happy to say will be Manuel Flores, a graduate of Harvard. He plans to speak about the Evolution of the Genera. I'm sure you will find this both knowledgeable and entertaining. Our program will start at 7:45 P.M.

Plan to come, bring your lawn chairs. Help the society double in size, bring a guest too. We hope to see YOU there.
